

## TECHNICAL CARD

### 1. Product type:

Plastic Skirtingl. Made of Expanded Polystyrene with a density around **0.45g/cm3**, produced together with hot stamping film.

### 2. Intended use:

Residential and commercial use as indoor decor

### 3. Declared performance and notified test laboratory:

No Formaldehyde; High-Strength; Easy to install; Anti-moth; Waterproof; Eco-friendly; Scratch-resistant; color lasting  
SGS-CSTC

Test Items	Specs	Results
